Central Washington University Our Secret Formula? Small classes + professors passionate about teaching + hands-on experience—in the field and around the world.

Central Washington University

The many-worlds interpretation is an interpretation of quantum mechanics that asserts the objective reality of the universal wavefunction and denies the actuality of wavefunction collapse. The existence of the other worlds makes it possible to remove randomness and action at a distance from quantum theory and thus from all physics.

Many-worlds interpretation - Wikipedia

Bridge Questions to guide students and inform instructors. Our multifaceted, formative Bridge Questions capstone the Prelecture experience. These multiple-choice and free-response questions overview the content covered during the Prelecture, providing a way for students to communicate their grasp of the material to their instructor.

FlipIt Physics

Undocumented or DACA Students. We welcome applications from undocumented and DACA (Deferred Action for Childhood Arrivals) students. You apply in the same way U.S. citizens and permanent residents do, and your application will be considered the same way U.S. citizens and permanent residents are, by the regional admissions officer responsible for where you attend high school.

When light of a single wavelength, like the 632.8nm red light from a helium-neon laser at left, strikes a diffraction grating it is diffracted to each side in multiple orders. Orders 1 and 2 are shown to each side of the direct beam. Different wavelengths are diffracted at different angles, according to the grating relationship.

Diffraction Grating - Georgia State University

Goethe University Frankfurt (German: Johann Wolfgang Goethe-Universität Frankfurt am Main) is a university located in Frankfurt, Germany. It was founded in 1914 as a citizens' university, which means it was founded and funded by the wealthy and active liberal citizenry of Frankfurt.
